

Ferti-Organic

TECHNICAL SHEET

Ferti-Nitro Plus is a water soluble powder produced enzymatically without the use of chemicals or animal by-products. Derived from soy protein with a guaranteed minimum of 13.62% nitrogen ideal for nitrogen deficient crops. Provides nitrogen from amino acids and short polypeptides. Not slow release but readily available for nutrient uptake and absorption.

Ferti-Nitro Plus is a vegan plant nutrient. Recommended for organic agriculture use and as a synthetic chemical-free fertilizer. Compatible with conventional nitrogen sources and most fertilizers.

PACKAGING:

50 lbs. sacks/boxes, 2,200 lbs/pallets, 1,225 lbs. super sacks, or custom orders.

USES

Suitable for all crops and applications including field crops, potting soil, vegetable and flower gardens, orchards and turf grass.

Ferti-Nitro Plus Plant Nitrogen (Fertilizer Grade)

SPECIFICATION

Nitrogen (N):	13.62%
Phosphate (p2o5):	<0.1%
Potash (k2o):	<0.1%
pH of 1% solution:	5.5-7

BENEFITS

60-68 grams of readily available plant based nitrogen per LB.

No tip burn as customary with synthetic nitrates or ammonia N sources

Highly improves the transportation of minerals

Natural product

Handling does not require special equipment or gear

Enzyme hydrolysis produces a smaller particle size giving FN Plus its highly soluble nitrogen.
