

# Ferti-Organic

Our **Ferti-Neem Oil** is processed the natural way through a cold processing method allowing it to retain its high Azadirachtin content and varieties, A and B, with several other isomers. It is harnessed without heat, chemicals, petrochemicals and retains all the well balanced nutrients. It is nontoxic to humans, birds, earthworms or animals.

Advantages include, but not limited to:

- Support for organic crop protection
- Helps reduce pesticidal applications

## Ferti-Neem Oil

### Guaranteed Analysis

Pure Neem Oil 100%  
Azadirachtin 3000 ppm

Guaranteed through IS 14299: 2004 analysis  
method in USA authorized laboratories.

### GENERAL APPLICATION RATE

Shake vigorously before opening.

Mix 1 qt (1 l) of water and .35 oz (10 g) of a natural emulsifier (e.g. ecologically friendly detergent), stir vigorously.

Add 1.7 fl oz (50 ml) of Ferti-Neem Oil and continue to stir vigorously.

Finally, add this mixture into 2.7 gal (10 liters) of water. Spray within 8 hours of mixing.

### STORAGE

Store at room temperature. Avoid direct sunlight and freezing temperatures. After use, keep container tightly closed away from sunlight.

**NOTE:** Neem Oil will begin to solidify at or below 53 °F.

**Net content 5 gal / 18.9 l**
